About Ophiuchus Healing Center

Ophiuchus, The Celestial Healer

Named after the 13th constellation that directly links to our nervous system, Ophiuchus Healing Center is a sanctuary of mystical healing and holistic rejuvenation. The first of its kind in the world, Ophiuchus merges the most advanced science with spiritual principles to create quantum leaps in healing for humankind; comprising frequency-encoded architecture, landscapes, and amenities that nurture the body, mind, and soul while enhancing planetary ecology.

The First of 13

Nestled in the serene landscape of the Transylvanian Mountains of Romania, Ophiuchus Healing Center is the first of 13 interconnected centers, each to be strategically built on potent grid structures, or Ley Lines, within Earth's energetic template. In Romania, the Transylvanian Mountains breathe with positive energy, offering a natural sanctuary of beauty, spiritual resonance, and mystic allure.

The 13 centers are constructed using precise sacred geometry to foster accelerated healing and holistic alignment – physical, mental, emotional, and spiritual. They represent the 13 body parts linked to the 13 constellations of the Zodiac. At the heart of this network, Ophiuchus serves as the pivotal hub uniting the energies of the other 12 centers, to be constructed in Madeira, France, Moorea, Egypt, New Zealand, USA, Peru, United Kingdom, Australia, Brazil, Russia and Moorea as the thirteenth, as well as a number of smaller satellite centers.

The Global Mission

Ophiuchus & The 12 Healing Centers

Star Magic Healing facilities are designed with a radically different approach to building infrastructure compared to traditional luxury healing or resort centers. By integrating energy-aligned architecture, advanced magnetic technologies, intelligent systems, and a transformational purpose, these facilities redefine what a healing center can be. They don't just provide a space for wellness, the environment itself is built to create profound healing.

Here's a detailed explanation of how and why they stand apart:

Sacred Geometry Design: Unlike typical resort buildings focused on aesthetics and functionality, Star Magic structures are crafted using sacred geometry principles that resonate with the Earth's energy field. This allows a natural energy flow and creates environments that amplify healing.

Placement on Energy Vortexes (Ley lines): While most resorts prioritize scenic views, Star Magic facilities are strategically located on Earth's energy vortexes or ley lines, allowing the infrastructure to harness and distribute these energies throughout the building to amplify healing.

Magnetic Shielding Technology: Star Magic facilities incorporate advanced materials and specific codes to block harmful electromagnetic frequencies (EMFs) from external sources like Wi-Fi, cell towers, and electronics. This creates a "clean energy" environment, vastly different from typical resorts that often neglect EMF impacts.

Magnetic Field Generators: The buildings include embedded technologies that generate beneficial magnetic fields to support cellular regeneration and energy balance.

High-Frequency Water and Groundbreaking Technology: Energy alignment and mathematics to align the water to its highest crystalline form, using specific pipe shapes and waterflows, as well as the use of pure onsite well water.

Quantum Healing Chambers: These are specialized rooms designed to emit specific frequencies tuned for physical, emotional, and spiritual healing. Typical luxury centers may offer spa rooms, but Star Magic's chambers are engineered to accelerate transformation using sound, light, and energetics.

Dynamic Lighting Systems: The infrastructure integrates circadian lighting that adjusts throughout the day to align with natural human rhythms, promoting better sleep, mood, and overall health.

Biophilic and Eco-Conscious Design: While luxury centers often incorporate greenery for aesthetics, Star Magic takes this further with biophilic designs that fully integrate natural elements into the structure.

Sustainable Infrastructure: The facilities use of renewable energy sources ensures minimal environmental impact, as part of its commitment to sustainability.

High-Vibration Materials: During construction, materials are selected and treated with energetic intent to maintain a high vibrational frequency. This concept is unheard of in typical luxury centers which prioritize appearance over energetic properties.

Crystal & Mineral Infusion: Some elements of the infrastructure may include embedded crystals and precious elements to amplify energy flow, acting as conduits for healing frequencies.

Beyond Comfort and Luxury: Star Magic facilities are purpose-built for transformation, designed to trigger profound shifts in consciousness, energy, and well-being.

Global and Cosmic Perspective: Star Magic centers are part of a larger mission to align humanity with planetary and universal energies, making the infrastructure itself a tool for global impact.

Global Outreach and Expansion: Star Magic aims to establish a global network of ascension centers, with each location contributing to a larger mission of planetary and human transformation. Outreach programs, workshops, and virtual healing sessions extend their impact worldwide, reaching people who cannot travel to the facilities.

A Non-profit Model: Star Magic's nonprofit model prioritizes global accessibility and impact, creating a worldwide healing movement, unlike other isolated luxury destinations which act as getaways and serve merely as a band-aid to the human condition. In typical medi-spas and resorts, expansion is driven by profitability, with new locations often catering to high-income markets.

Star Magic Trainings and Workshops at Ophiuchus

Star Magic Healing gives individuals from all walks of life the opportunity to rewrite their lives by experiencing transformative healing (through our Group Healing, Deep In Space, and Savage Man events among others) or by becoming healing facilitators themselves (through our Facilitator Trainings Levels 1,2, and 3).

Services that are currently rendered through Star Magic Healing and will be hosted at Ophiuchus include:

Facilitator Training Level 1 (FT1)

During this 5-day training, both beginners and veteran healing practitioners get the best learning experience as they train together seamlessly. Participants are introduced to basic and advanced Star Magic healing techniques and taught how to interact with high vibratory fields of intelligence. They graduate as certified Star Magic Level 1 Healing Facilitators by the end of the training.

Facilitator Training Level 2 (FT2)

With Facilitator Training Level 1 as its prerequisite, Level 2 consists of two very important components: Multidimensional Light Body Activation and Planetary Grid Work. During this 5-day training, participants activate their Multidimensional Architecture, upgrade their knowledge on what Planetary Grid Work is, and get to experience live missions that put their new skill set to the test. They graduate as certified Star Magic Level 2 Healing Facilitators by the end of the training.

Facilitator Training Level 3 (FT3)

This 7-day workshop is for Star Magic Facilitators who have completed Levels 1 and 2. By the end of this training, facilitators will be able to take a group of souls safely through meditations, a Group Activation, and safely through a portal and back home again. These tools accompany them for life and they can use them to assist many souls in their Earthly Ascension Process.

Group Healing (GH)

This life-transforming healing event consists of a super-safe, high frequency energetic container set up for a period of 6 hours. Participants come out the other side with their life radically changed. Many diseases and illnesses vanish, traumas are transmuted, anxiety and worry disappear, hearts expand, abundance blocks and limiting beliefs dissolve, and a profound connection to Source and genuine love are experienced.

Deep In Space (DIS)

In this 10-day event, the incredibly powerful Star Magic healing frequency is combined with Mother Nature's potent Ayahuasca and Psilocybin, two ancient plant medicines used by indigenous tribes to expand consciousnesses and enter the spirit world to journey and communicate. Cosmic discovery, deep healing, and remarkable insights are experienced, transforming lives physically, mentally, emotionally, and spiritually.

New Workshops

A variety of powerful workshops such as Qi-gong, Deep Breathwork, and DNA Activations are also taught at the center, in addition to new workshops, tours, and trainings that are being created right now.

Giving Back

To give back to our community and empower our sisters and brothers on the planet, we give away 20% of seats to individuals who are unable to pay workshop fees. Not only will this raise their levels of consciousness and grant them the most advanced spiritual and quantum healing tools, but it will activate their abundance, enabling them to embrace health, joy and success. It will also introduce a ripple effect through which they can pay it forward.

The mission of the Star Magic Foundation is to help our sisters and brothers of Earth to claim their sovereignty by providing assistance and opportunities where they're needed most.

The Star Magic Foundation does not act as a charity providing relief, such as food parcels to keep people in their current situation, by administering band-aids that have a shelf life. We are determined to be enablers, inspiring and motivating those in less fortunate situations by providing sustainable solutions so people can look after themselves long-term. These include new homes and permaculture projects, water pipelines and resources to repair, build and equip educational facilities.
